

## Curriculum for Excellence Workshops

### Health and Wellbeing: | Anti-Social Behaviour | ASBOver

#### Content

This workshop will explore the acts and repercussions of anti-social behaviour.

Pupils will work with the Love Drama facilitator to explore what anti-social behaviour is and the repercussions that this has on other people and the community. Using various drama techniques the class will discuss and decide who it is that commits anti-social behaviour and why they do this. The class will then participate in improvisation exercises which will look at the effects that anti-social behaviour has on others.

#### Learning Level

Suitable for early, first and second stages with information and delivery adapted to the needs of your class.

#### Space

A large clear space, most suitable would be either a gym or assembly hall.

#### Time

Early/First – 60 minutes

Second – 90 minutes

#### Additional Information

As with all of our workshops it is extremely important the class teacher stays with the group at all times. This ensures that the learning experiences and outcomes are shared and that our workshops contribute effectively to the development of each and every young person.

Love Drama prides itself on creating a bespoke service that meets the needs of its clients. Love Drama is flexible and responsive to individual requests and the dissemination of all workshops can be tailored to complement the outcomes and experiences you have included in your forward planning. You may choose to work with us in a one-off session, over four weeks or for the duration of a term, in order to create a learning experience that effectively supports all participants. If you have any queries regarding participation within these workshops, please do not hesitate to contact us.
