

LOVE DRAMA

Curriculum for Excellence Workshops

Health and Wellbeing: | Bullying 1 | Jake & Julie

Content

This workshop will explore aspects of bullying including name calling, leaving people out and forms of physical bullying. The Love Drama tutor will work in role as a storyteller and puppeteer with puppets Jake and Julie. The children will follow the story of Jake as he is picked on by Julie. Jake no longer looks forward to going into school and doesn't feel he can tell anyone about his tough times. The pupils will suggest things that Jake can do which will encourage him to make positive choices and to overcome his problems.

Learning Level

Suitable for early, first and second stages with information and delivery adapted to the needs of your class.

Space

A large clear space, most suitable would be either a gym or assembly hall.

Time

60 minutes

Additional Information

Healthy Living Workshops are most popular during a school's Health Weeks, but can be booked at anytime of the year to promote all aspects of healthy living amongst pupils. Our Healthy Living Workshops are designed to be a fun, active and challenging way of exploring health issues.

As with all of our workshops it is extremely important the class teacher stays with the group at all times. This ensures that the learning experiences and outcomes are shared and that our workshops contribute effectively to the development of each and every young person.

Love Drama prides itself on creating a bespoke service that meets the needs of its clients. Love Drama is flexible and responsive to individual requests and the dissemination of all workshops can be tailored to complement the outcomes and experiences you have included in your forward planning. You may choose to work with us in a one-off session, over four weeks or for the duration of a term, in order to create a learning experience that effectively supports all participants. If you have any queries regarding participation within these workshops, please do not hesitate to contact us.
