

LOVE: DRAMA

Curriculum for Excellence Workshops

Mathematics: |Number, Money and Measure| Estimation and Rounding

Content

The Street

Pupils will use a range of exercises and techniques to create characters and settings to bring a street full of homes and residents to life. From this they will explore techniques in estimating simple calculations in order to answer questions relating to their new community. Then it's time for a party, but can the pupils estimate and calculate if there will be enough food, drink and party hats to go around?

Learning Level

Suitable for early, first and second stages with information and delivery adapted to the needs of your class.

Space

A large clear space, most suitable would be either a gym or assembly hall.

Time

Early/First – 60 minutes

Second – 90 minutes

Additional Information

As with all of our workshops it is extremely important the class teacher stays with the group at all times. This ensures that the learning experiences and outcomes are shared and that our workshops contribute effectively to the development of each and every young person.

Love Drama prides itself on creating a bespoke service that meets the needs of its clients. Love Drama is flexible and responsive to individual requests and the dissemination of all workshops can be tailored to complement the outcomes and experiences you have included in your forward planning. You may choose to work with us in a one-off session, over four weeks or for the duration of a term, in order to create a learning experience that effectively supports all participants. If you have any queries regarding participation within these workshops, please do not hesitate to contact us.
