

LOVE DRAMA

Curriculum for Excellence Workshops

Mathematics: |Number: Money and Measure|Money

Content

Holiday, here we come!

We've worked really hard and we've saved up our money, so now it's time to pack up our bags and head for the sunshine. Using an immersive improvisation exercise the pupils will create characters and situations that allow for the exploration of money. They will be able to identify a range of coins and be able to use them in practice to buy and sell goods. We will discuss the risks and benefits of other forms of money such as bank cards, and look at how to budget so that we can ensure that we can enjoy our well earned break.

Learning Level

Suitable for early, first and second stages with information and delivery adapted to the needs of your class.

Space

A large clear space, most suitable would be either a gym or assembly hall.

Time

Early/First – 60 minutes

Second – 90 minutes

Additional Information

As with all of our workshops it is extremely important the class teacher stays with the group at all times. This ensures that the learning experiences and outcomes are shared and that our workshops contribute effectively to the development of each and every young person.

Love Drama prides itself on creating a bespoke service that meets the needs of its clients. Love Drama is flexible and responsive to individual requests and the dissemination of all workshops can be tailored to complement the outcomes and experiences you have included in your forward planning. You may choose to work with us in a one-off session, over four weeks or for the duration of a term, in order to create a learning experience that effectively supports all participants. If you have any queries regarding participation within these workshops, please do not hesitate to contact us.
