

LOVE DRAMA

Curriculum for Excellence Workshops

Eco-Schools: | Transport, Water and Biodiversity | Pollution

Content

Welcome to Abercromby Road. The pupils will be lead through an immersive activity that allows for the creation and development of a bustling community. We will visit the inhabitants of each house on the street, finding out how they contribute to an eco-friendly society. Using improvisation and role-play the participants will look at how they live and how their actions affect the world around them. The pupils will have the opportunity to examine and evaluate their ideas whilst also finding solutions that they can practically deploy in their everyday lives.

Learning Level

Suitable for early, first and second stages with information and delivery adapted to the needs of your class.

Space

A large clear space, most suitable would be either a gym or assembly hall.

Time

Early/First – 60 minutes
Second – 90 minutes

Additional Information

As with all of our workshops it is extremely important the class teacher stays with the group at all times. This ensures that the learning experiences and outcomes are shared and that our workshops contribute effectively to the development of each and every young person.

Love Drama prides itself on creating a bespoke service that meets the needs of its clients. Love Drama is flexible and responsive to individual requests and the dissemination of all workshops can be tailored to complement the outcomes and experiences you have included in your forward planning. You may choose to work with us in a one-off session, over four weeks or for the duration of a term, in order to create a learning experience that effectively supports all participants. If you have any queries regarding participation within these workshops, please do not hesitate to contact us.
